

Between Foss (east)
and Sayre (west)

Note on Alignment:

Original US 66 followed the old Oklahoma postal route between Elk City and Sayre from 1926-1929, when it was replaced by the first paved route (Maps 104-109).

Note:

The left side of this map (arrow) is the match point to Map 109, where the green and red routes connect at Sayre. For continuity, Map 109 will be repeated as the next map (numbered 114). From there mapping continues westward from Sayre.
