

Note:
The dashed gray line represents an earlier paved alignment of US 95, visible on a 1953 aerial photo. It is possible that the green route followed the same pathway rather than the one depicted.

US 95

Green = Original route.

Red = First (uniformly) paved alignment (1931), which bypassed the loop through Goffs (green).

Note:
From here, mapping will proceed westward, following the red route to Essex (Map 21).

To Essex
via Goffs
