

Between Catoosa (east)
and Sapulpa (west)

Alignments on this Map

Green/Red: Original route already paved when US 66 was designated in 1926. Paving from 193rd E. Ave., which is the Tulsa Co. Line (previous map) to the Tulsa City Limit, was completed in 1922.

I-44/US 66: In 1959, US 66 was moved onto I-44 through Tulsa a year after its 1958 opening (not color coded). This alignment, which began as the Skelly Dr. / US 66 Bypass from Catoosa (previous map) to west Tulsa (Map29), was designated I-44 just prior to completion. When US 66 moved there in 1959, the green/red route on 11th St. (this map) was removed from its junction with I-44 at Catoosa to its junction with I-44 in Tulsa (next map).
