

Note:  
All drainage structures on this map are timber bridges built between 1929-1931.

1953 aerial view of Ludlow showing Main St. (green route) paralleling the RR (right side of photo), with many buildings still standing. Angling across the top of the image is the 1931 uniformly paved red route.

Postcard view of 1920s Main St. in Ludlow along the green route.
