

Note:
The dashed gray line at right appears as a road on a 1936 aerial photo. It may have been a detour used during paving.

Between the Arizona State Line (east)
and Needles (west)

Alignments on this Map

- Green: Path of the NOTR and the presumed path of US 66 prior to paving.
- Red: First paved alignment, visible on a 1936 aerial photograph.
- Orange: 1950s upgrade route, adopted by eastbound I-40 in the 1960s. All three structures depicted in black are bridges built for the orange route.
