

Between Bloomington (east)  
and Lincoln (west)

**Note on Alignments:**

As with the previous map, the original route (green/red) was closer to the RR than its 1940s upgrade replacement (orange). Lanes added in the Mid-1950s (blue) created a 4-lane highway. Those added lanes were later adopted by I-55 (top of the map) in the 1970s.
