

Between Glorieta (east) and Santa Fe (west)

Note on Alignments:

The original route (green) along the Santa Fe Loop was paved for the most part by 1930. The red route represents improvements made between 1932 and the 1937 bypass.

Continuation of the previous map begins here.

Note:
The dashed gray line is the probable path of the National Old Trails Road and possible first alignment of US 66. If so, the gray route would be green, and the green/red route would be red only.
