

Between Peach Springs (east)
and Hackberry (west)

Note on Alignments:

The original route (green) followed the National Old Trails Road through most of Arizona. It is possible that the alignment depicted here as US 66 actually followed the dashed gray line. It is also possible that these are two different alignments of the NOTR. Both appear on vintage aerial photos. Other evidence is inconclusive.

Note:
Culverts for the red route were
built between 1930 and 1936.
Unless labeled as a bridge, all
drainage structures on this map
are culverts.
