

Between Hackberry (east)
and Kingman (west)

Note:
The three culverts on
this map were built in
1936 as the red route
was being paved.

Note on Alignments:
The path of the green route on this map may not be
precise. It is also possible that the green route joined
the red route where they meet at the bottom of the
map. Evidence is inconclusive.

1962
Hackberry
Wash Bridge

Surviving pier from
the earlier bridge.
