

Between Bethany (east)
and El Reno (west)

Alignments on this Map

Green/Red: Original and first paved route, hard surfaced in 1928.

Orange: 1951 4-lane upgrade that began in Yukon (Map 70), and ended (above) where it met a 3-lane section completed east from El Reno (Map 74) in 1940. Except for turning lanes where needed, the 3-lane roadway has since been reduced back to 2 lanes.
