

Between San Bernardino (east)
and Pasadena (west)

Note on Alignments:

An aerial photo from December 1927 shows a newly completed Sawpit Wash Bridge and new roadway on Huntington Dr. east of Shamrock Ave. (red). West of Shamrock Ave., Huntington Dr. is undergoing construction. This suggests that the route may have moved from the original alignment on Foothill (green) to Huntington Dr. circa 1928 to the east of Shamrock. West of Shamrock, the route likely moved to Huntington upon completion of improvements there. In the interim, the red route east of Shamrock could have turned north there to connect with the green route.
