

Between Hamel (east)
and East St. Louis (west)

Alignments on this Map:

Green/Red: Original and first paved route. The curve correction at Staunton Rd. (dashed green line) took place between 1945 and 1956, based on aerial photographs. The green route initially had been paved in brick at an unknown date.

Orange: 1957 4-lane alignment, later adopted by I-55. The green/red route became "Bypass" US 66 at this time. This orange route first shows as I-55 on the 1977 IL state highway map.
