

**Alignments on this Map**

Orange: 1957 upgrade 4-lane route (undivided here) that originated at Hamel and extended to East St. Louis.

Turquoise: The second "City" US 66, which originated at Chain of Rocks Rd. (Map 90 and inset, this map) and followed IL 111 to Collinsville Rd. The "City" route was removed when the orange route was designated mainline US 66 in 1957.

Note: The 4-lane route on this map was moved onto newly completed I-55/I-70 in 1963, which is not color coded as it does not involve a former or existing US 66 alignment.
